

# Squeegee Blade rubber (RXSOL-22-2126-001)

MATERIAL SAFETY DATA SHEET • SALALAH CHEMICAL, OMAN

## 1. Product and Company Identification

[www.rxmarine.com](http://www.rxmarine.com)

|              |                       |
|--------------|-----------------------|
| Product Name | Squeegee Blade rubber |
| Part Number  | RXSOL-22-2126-001     |

Company Details:....

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Branch : Kandla, Mumbai , Chennai, Vizag, Kolkata, UAE , OMAN , CANADA and KENYA

|         |                                                          |

## 2. Composition / Information on ingredients

[www.rxmarine.com](http://www.rxmarine.com)

|                 |                                                                             |
|-----------------|-----------------------------------------------------------------------------|
| <b>Mixtures</b> | No components need to be disclosed according to the applicable regulations. |
|-----------------|-----------------------------------------------------------------------------|

## 3. Hazards Identification

[www.rxmarine.com](http://www.rxmarine.com)

**Classification of the substance or mixture**

**Classification (EC 1272/2008)**

|                               |                                                           |
|-------------------------------|-----------------------------------------------------------|
| Physical and Chemical Hazards | Not classified                                            |
| Human health                  | Not classified                                            |
| Environment                   | Not classified                                            |
| Label elements                | Not a hazardous substance or mixture.                     |
| Other hazards                 | This product does not contain any PBT or vPvB substances. |

## 4. First Aid Measures

[www.rxmarine.com](http://www.rxmarine.com)

**Description of first aid measures**

|                                                                    |                                                                                                                                                                 |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                                                  | Not applicable.                                                                                                                                                 |
| <b>Ingestion</b>                                                   | Not applicable.                                                                                                                                                 |
| <b>Skin contact</b>                                                | In contact with hot melt: cool immediately with plenty of water. Do not remove the product crusts formed by forcing or applying a solvent to the involved skin. |
| <b>Eye contact</b>                                                 | Not applicable.                                                                                                                                                 |
| <b>Most important symptoms and effects, both acute and delayed</b> | No additional information.                                                                                                                                      |

|                                                                                   |                    |
|-----------------------------------------------------------------------------------|--------------------|
| <b>Indication of any immediate medical attention and special treatment needed</b> | No data available. |
|-----------------------------------------------------------------------------------|--------------------|

## 5. Fire-fighting Measures

www.rxmarine.com

|                                                              |                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Extinguishing media</b>                                   | Extinguishing media: Foam, carbon dioxide (CO <sub>2</sub> ), dry chemical powder, and water.                                                                                                                                                                                            |
| <b>Special hazards arising from the substance or mixture</b> | Fire produces toxic gas. Carbon monoxide (CO), carbon dioxide (CO <sub>2</sub> ), nitrogen oxides and hydrogen cyanide gas (HCN) can be formed.                                                                                                                                          |
| <b>Advice for firefighters</b>                               | Avoid breathing fire fumes. Cool containers exposed to heat with water spray. Contain extinguishing fluids with bunds. Use suitable protective clothing during firefighting. Do not attempt to take action without suitable protective equipment. Use selfcontained breathing apparatus. |

## 6. Accidental Release Measures

www.rxmarine.com

|                                                                            |                                            |
|----------------------------------------------------------------------------|--------------------------------------------|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Not applicable.                            |
| <b>Environmental precautions</b>                                           | Avoid dispersing to the environment.       |
| <b>Methods and material for containment and cleaning up</b>                | The product can be mechanically recovered. |
| <b>Reference to other sections</b>                                         | See section 13 for waste disposal.         |

## 7. Handling and Storage

www.rxmarine.com

|                                                                     |                                                                                                                                                                                                                      |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions for safe handling</b>                                | Not required any special or special technical measures.<br>Do not eat, drink or smoke in the work area.<br>No additional measures are required to prevent environmental risks. See section 6.2 for more information. |
| <b>Conditions for safe storage, including any incompatibilities</b> | Store below 40 °C in cool and well-ventilated areas.                                                                                                                                                                 |
| <b>Specific end use(s)</b>                                          | No additional information.                                                                                                                                                                                           |

## 8. Exposure controls and personal protection

www.rxmarine.com

### Control parameters

|                        |                                                          |
|------------------------|----------------------------------------------------------|
| <b>Exposure limits</b> | It does not contain any substance with an exposure limit |
|------------------------|----------------------------------------------------------|

### Exposure controls

### Protective equipment

|                                        |                                                                                                 |
|----------------------------------------|-------------------------------------------------------------------------------------------------|
| <b>Eye/face protection</b>             | In case of dust formation in the application, use protective glasses.                           |
| <b>Hands Protection</b>                | Not required for normal use conditions.                                                         |
| <b>Respiratory equipment</b>           | Protective equipment is required if fog occurs or if professional exposure limits are exceeded. |
| <b>Environmental Exposure Controls</b> | Not required for normal conditions.                                                             |

## 9. Physical and chemical properties

www.rxmarine.com

|                                                |                                                 |
|------------------------------------------------|-------------------------------------------------|
| <b>Appearance</b>                              | Solid                                           |
| <b>Colour</b>                                  | Variable                                        |
| <b>Odor</b>                                    | Odourless                                       |
| <b>Solubility</b>                              | Insoluble in water.                             |
| <b>First boiling point (°C)</b>                | Not applicable.                                 |
| <b>Vapor pressure (Pa)</b>                     | Not applicable.                                 |
| <b>Melting point (°C)</b>                      | No data available                               |
| <b>Density (g/cm<sup>3</sup>)</b>              | No data available                               |
| <b>Dynamic viscosity (cP)</b>                  | Not applicable.                                 |
| <b>Kinematic viscosity (mm<sup>2</sup>/s)</b>  | Not applicable.                                 |
| <b>Vapor density</b>                           | Not applicable.                                 |
| <b>Partition Coefficient (N-Octanol/Water)</b> | No data available.                              |
| <b>Decomposition temperature (°C)</b>          | No data available.                              |
| <b>Self ignition temperature (°C)</b>          | No data available.                              |
| <b>Flash point (°C)</b>                        | Not applicable                                  |
| <b>Explosive properties</b>                    | Not applicable                                  |
| <b>Oxidizing properties</b>                    | Non-oxidizing material according to EC criteria |
| <b>Other informations</b>                      | No information required.                        |

## 10. Stability and reactivity

www.rxmarine.com

|                                           |                                                                                                                                                                                                 |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | No harmful reactions if stored under suitable conditions. See section 7.                                                                                                                        |
| <b>Chemical stability</b>                 | Stable under normal temperature conditions and recommended use. Stable under prescribed storage conditions.                                                                                     |
| <b>Possibility of hazardous reactions</b> | It can decompose and release toxic gas when exposed to high temperature.                                                                                                                        |
| <b>Conditions to avoid</b>                | Do not allow to burst into flames.                                                                                                                                                              |
| <b>Incompatible materials</b>             | Strong oxidizing agents                                                                                                                                                                         |
| <b>Hazardous decomposition products</b>   | Depending on the decomposition conditions, complex chemical mixtures may be released: carbon dioxide (CO <sub>2</sub> ), carbon monoxide (CO), nitrogen oxides, and hydrogen cyanide (HCN) gas. |

## 11. Toxicological information

www.rxmarine.com

### Information on toxicological effects

|                                          |                    |
|------------------------------------------|--------------------|
| <b>Acute toxicity</b>                    | No data available. |
| <b>Skin corrosion/irritation</b>         | No data available. |
| <b>Serious eye damage/eye irritation</b> | No data available. |
| <b>Respiratory or skin sensitization</b> | No data available. |

|                                                           |                    |
|-----------------------------------------------------------|--------------------|
| <b>Germ cell mutagenicity</b>                             | No data available. |
| <b>Carcinogenicity</b>                                    | No data available. |
| <b>Reproductive toxicity</b>                              | No data available. |
| <b>Specific target organ toxicity - single exposure</b>   | No data available. |
| <b>Specific target organ toxicity - repeated exposure</b> | No data available. |
| <b>Aspiration hazard</b>                                  | No data available. |

## 12. Ecological information
