

# BARIUM CARBONATE (RXSOL-19-3356-068)

MATERIAL SAFETY DATA SHEET • SALALAH CHEMICAL, OMAN

## 1. Product and Company Identification

[www.rxmarine.com](http://www.rxmarine.com)

|              |                   |
|--------------|-------------------|
| Product Name | BARIUM CARBONATE  |
| Part Number  | RXSOL-19-3356-068 |

Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Branch : Kandla, Mumbai , Chennai, Vizag, Kolkata, UAE , OMAN , CANADA and KENYA

|         |                                                          |

## 2. Composition / Information on ingredients

[www.rxmarine.com](http://www.rxmarine.com)

| Chemical Name    | CAS      | EC number | Weight  | Formula |
|------------------|----------|-----------|---------|---------|
| Barium carbonate | 513-77-9 | 208-167-3 | = 100 % | CBaO3   |

## 3. Hazards Identification

[www.rxmarine.com](http://www.rxmarine.com)

|                                                |                                                                                                                                                                                                                                                        |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Signal Word                                    | Warning                                                                                                                                                                                                                                                |
| Hazard Statements                              | H302 Harmful if swallowed.                                                                                                                                                                                                                             |
| P280 Wear protective gloves.P305 + P351 + P338 | Wear eye protection/ face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.                                                                                 |
| Precautionary statements                       | P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P301 + P312 IF SWALLOWED: Call a POISON CENTER/ doctor if you feel unwell. P501 Dispose of contents/ container to an approved waste disposal plant. |
| Classification of the substance or mixture     | Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.                                                                                                                                                                        |
| Supplemental Hazard Statements                 | None                                                                                                                                                                                                                                                   |
| Other hazards                                  | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                     |

## 4. First Aid Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                |                                                                   |
|----------------|-------------------------------------------------------------------|
| General advice | Show this material safety data sheet to the doctor in attendance. |
|----------------|-------------------------------------------------------------------|

|                                                                            |                                                                                                                                                            |
|----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled                                                                 | After inhalation: fresh air.                                                                                                                               |
| Eye Contact                                                                | After eye contact: rinse out with plenty of water. Remove contact lenses.                                                                                  |
| Swallowed                                                                  | After swallowing: immediately make victim drink water (two glasses at most). Consult a physician.                                                          |
| Skin Contact                                                               | In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower.                                                    |
| Inhalation                                                                 | Remove patient to fresh air, keep warm and at rest and get medical assistance in necessary.                                                                |
| Ingestion                                                                  | Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately. |
| Most important symptoms and effects, both acute and delaye                 | The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11                                        |
| Indication of any immediate medical attention and special treatment needed | No data available                                                                                                                                          |

## 5. Fire-fighting Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                                                       |                                                                                                           |
|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| Flammability                                          | May be combustible at high temperature.                                                                   |
| Flash Point                                           | Higher than 93.3°C (200°F).                                                                               |
| Suitable extinguishing media                          | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.   |
| Unsuitable extinguishing media                        | For this substance/mixture no limitations of extinguishing agents are given.                              |
| Special hazards arising from the substance or mixture | Carbon oxides Barium oxide Not combustible. Ambient fire may liberate hazardous vapours.                  |
| Further information                                   | Prevent fire extinguishing water from contaminating surface water or the ground water system.             |
| Hazardous combustion products                         | Fire may cause the evolution of Sulphur oxides, nitrogen oxides.                                          |
| Advice for firefighters                               | In the event of fire, wear self-contained breathing apparatus.                                            |
| Protective Equipment                                  | Use personal protective equipment.                                                                        |
| Specific Hazards Arising from the Chemical            | Has a fire-promoting effect due to the release of oxygen.<br>Ambient fire may liberate hazardous vapours. |

## 6. Accidental Release Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                                                                     |                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | Advice for non-emergency personnel: Avoid inhalation of dusts. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8.                                                                                                  |
| Spillage                                                            | Oxidizing material. Stop leak if without risk. Avoid contact with a combustible material (wood, paper, oil, clothing...). Keep substance damp using water spray. Do not touch spilled material. Prevent entry into sewers, basements or confined areas dike if needed. Eliminate all ignition sources. Call for assistance on disposal. |

|                                                    |                                                                                                                                                                                                                |
|----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Protection                                | Advice for non-emergency personnel: Avoid inhalation of dusts. Evacuate the danger area, observe emergency procedures, consult an expert. Advice for emergency responders: Protective equipment see section 8. |
| Environmental Precaution                           | Do not let product enter drains.                                                                                                                                                                               |
| Methods and materials for containment and cleaning | Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up dry. Dispose of properly. Clean up affected area. Avoid generation of dusts.         |

## 7. Handling and Storage

[www.rxmarine.com](http://www.rxmarine.com)

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling                                      | Work under hood. Do not inhale substance/mixture.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Advice on protection against fire and explosion              | Keep away from open flames, hot surfaces and sources of ignition.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Incompatible materials                                       | Keep away from alkalis, strong oxidizing agents and metals. Provide containment walls of adequate capacity to hold any accidental spills.                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Hygiene measures                                             | Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance. For precautions see section 2.2.                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Precautions for safe handling                                | For precautions see section 2.2.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Conditions for safe storage, including any incompatibilities | Store the container tightly closed in a dry, cool and well-ventilated place. Store apart from foodstuff containers or incompatible materials.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Storage conditions                                           | Tightly closed. Dry.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Storage class                                                | Storage class (TRGS 510): 13: Non Combustible Solids                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Specific end use(s)                                          | Apart from the uses mentioned in section 1.2 no other specific uses are stipulated                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Handling                                                     | Keep away from heat. Keep away from sources of ignition. Keep away from combustible material.. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not ingest. Do not breathe dust. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. Keep away from incompatibles such as reducing agents, combustible materials, organic materials, metals |
| Advice on general occupational hygiene                       | Advice on safe handling Observe label precautions. Change contaminated clothing. Wash hands after working with substance.                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Requirements for storage                                     | Keep in cool and store under shade.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## 8. Exposure controls and personal protection

[www.rxmarine.com](http://www.rxmarine.com)

|                     |                                                                                                                                                                                                                                                                                 |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure controls   | No specific additional engineering controls are required. Provide good natural or artificial ventilation.                                                                                                                                                                       |
| Engineering Control | Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit. |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection               | Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Body Protection                   | Protective clothing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Skin protection                   | This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN374 please contact the supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: <a href="http://www.kcl.de">www.kcl.de</a> ). Full contact Material: Nitrile rubber Minimum layer thickness: 0,11 mm Break through time: 480 min Material tested:KCL 741 Dermatril® L Splash contact Material: Nitrile rubber Minimum layer thickness: 0,11 mm Break through time: 480 min Material tested:KCL 741 Dermatril® L |
| Respiratory protection            | Required when dusts are generated. Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system. Recommended Filter type: Filter type P2 The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.                                                                                                                                                                |
| Other Protection Measure          | Handle in accordance with good industrial hygiene and safety practice.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Control of environmental exposure | Do not let product enter drains.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## 9. Physical and chemical properties

|                                              |                          |
|----------------------------------------------|--------------------------|
| Physical state                               | Powder                   |
| Colour                                       | White                    |
| Odour                                        | Odorless                 |
| Odor Threshold                               | Not Applicable           |
| pH                                           | 6,8 at 3,67 g/l at 37 °C |
| Melting Point                                | No data available        |
| Boiling Point                                | No data available        |
| Flash Point                                  | No data available        |
| Evaporation Rate                             | Not Applicable           |
| Flammability (solid, gas)                    | No data available        |
| Explosive limits                             | No Data Available        |
| Upper/lower flammability or explosive limits | No data available        |
| Autoignition temperature                     | No data available        |
| Decomposition temperature                    | No data available        |
| Vapour pressure                              | No data available        |
| Density                                      | No data available        |
| Vapour Density                               | No Data Available        |
| Freezing point                               | No data available        |
| Specific Gravity                             | No data available        |
| Partition coefficient                        | No data available        |

|                          |                              |
|--------------------------|------------------------------|
| Explosive properties     | No data available            |
| Solubility               | 0,014 g/l - slightly soluble |
| Ignition temperature     | No information available.    |
| Particle characteristics | No data available            |

## 10. Stability and reactivity

www.rxmarine.com

|                                    |                                                                                         |
|------------------------------------|-----------------------------------------------------------------------------------------|
| Reactivity                         | No data available                                                                       |
| Stability                          | The product is chemically stable under standard ambient conditions (room temperature) . |
| Possibility of hazardous reactions | Violent reactions possible with: Strong acids                                           |
| Conditions to avoid                | No data available                                                                       |
| Incompatible materials             | Strong oxidizing agents                                                                 |
| Hazardous Polymerization           | In the event of fire: see section 5                                                     |

## 11. Toxicological information

www.rxmarine.com

|                                                  |                                                                                                                                                                                                                           |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute toxicity                                   | LD50 Oral - Rat - male and female - 1.690 mg/kg (OECD Test Guideline 401) Inhalation: No data available Dermal: No data available                                                                                         |
| Skin corrosion/irritation                        | Skin - Rabbit Result: No skin irritation - 4 h (OECD Test Guideline 404)                                                                                                                                                  |
| Skin corrosion/irritation                        | Skin - In vitro study Result: No skin irritation - 15 min Remarks: (ECHA)                                                                                                                                                 |
| Serious eye damage/eye irritation                | Eyes - Rabbit Result: No eye irritation - 1 h (OECD Test Guideline 405)                                                                                                                                                   |
| Respiratory or skin sensitization                | Local lymph node assay (LLNA) - Mouse Result: Not a skin sensitizer. (OECD Test Guideline 429)                                                                                                                            |
| Toxicity to Animal                               | WARNING: THE LC50 VALUES HEREUNDER ARE ESTIMATED ON THE Acute oral toxicity (LD50): 689 mg/kg [Rat].                                                                                                                      |
| Toxic Effects on Human                           | May cause damage to the following organs: upper respiratory tract. Other Toxic Effects on Humans: Hazardous in case of skin contact (irritant, sensitizer), of ingestion, of inhalation (lung irritant, lung sensitizer). |
| Carcinogenicity                                  | No data available                                                                                                                                                                                                         |
| Germ cell mutagenicity                           | No data available                                                                                                                                                                                                         |
| Reproductive toxicity                            | Presumed human reproductive toxicant                                                                                                                                                                                      |
| Specific target organ toxicity - single exposure | No data available                                                                                                                                                                                                         |

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special Remarks on other Toxi Effects on Humans | Acute Potential Health Effects: Skin: Causes skin irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon re-exposure to this material. Eyes: Causes eye irritation. Ingestion: Causes gastrointestinal (digestive) tract irritation with nausea, vomiting, and diarrhea. May be harmful if swallowed. Inhalation: Causes respiratory tract irritation. May cause chemical pneumonitis and pulmonary edema, inflammation, edema of bronchi and larynx. Chronic Potential Health Effects: Repeated or prolonged skin exposure may cause allergic reactions in sensitive individuals. Repeated or prolonged exposure by inhalation may affect respiration and metabolism. |

| Results of PBT and vPvB assessment                  | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                          |
| Endocrine disrupting properties                     | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. |
| Other adverse effects                               | No data available                                                                                                                                                                                                                                           |

## 13. Disposal considerations

[www.rxmarine.com](http://www.rxmarine.com)

|                  |                                                                                                                                                                                                                                                          |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal methods | The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems. |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                        |                                                                                                                                                                                                                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contaminated packaging | Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials. |
| Waste treatment Method | No data available                                                                                                                                                                                                                                                                                                                  |
